## PROJECT:

### MASTER PROJECT:

**“PHARMACOGNOSTIC, PHYTOCHEMICAL & PHARMACOLOGICAL STUDY OF *AMARANTHUS TRICOLOR LINN*”. Under the guidance of Dr.K.N.Venkateshwar RAO.**

In this project, we have observed that the folklore activity of *Amaranthus tricolor* is due to the presence of polyphenolic contents like phenols & flavonoids. These polyphenolic compounds are proved for its anti-oxidant activity, which are responsible for scavenging the free radical. These anti-oxidants are mostly responsible for prevention of various disorders caused by the free radicals.

### PUBLICATION:
