Dr. Mrudula obtained her Ph.D from the Department of Microbiology, Osmania University, in 2002. Her Doctoral work focused on “Thermostable amylopullulanase production in submerged and solid-state fermentation by *Clostridium thermosulfurogenes* SVM17”. With over 18 years of teaching experience at the Master’s level, Dr. Mrudula is a dedicated educator and a prolific researcher. She has supervised 12 Master’s dissertations (3-month duration), and under her guidance, 10 M.Phil. and 1 Ph.D. degree have been awarded. Dr. Mrudula has published 38 research and review articles in various national and international journals, book chapters, and conference proceedings. Dr. Mrudula's impact as a published author is significant. She has been the first or corresponding author for 25 articles and the sole author for four. She is also an invited reviewer of about seven peer-reviewed journals. Dr. Mrudula is an Assistant Professor (C) in the Department of Microbiology. Her specialization is microbial fermentations, particularly submerged and solid-state fermentations concerning enzyme production.

Highlights

- Nucleotide sequence submissions: 5
- Research publications: 38
- Invitee for syllabus framing/examination committee
- Invited reviewer for Peer journals: 7
- National/International Conferences & Workshops Attended/Presented & Organized committee member: 43
- Life member of the Indian Science Congress Association (L33536)
- Life member of The Association of Microbiologists of India (AMI: 4896-2019)
